Stu:

The power point looks fine and tracks well with the attached Exec Summary that has been docketed. I will forward the final Report to City Council upon receipt, but the attached narrative has been submitted and approved.

I briefed the Mayor and he knows that I am going to say that we have resolved the inland water rescue delayed response issue and are going to be adding fire units to the cliff rescues and treating them as we do any other medical aid.

This may be the first time that Local 911 hears the cliff rescue plan, but we must address and resolve asap.
