Councilmember Barbara Bry, District I

Re: Incentive Based Zoning Regulations for Coastal Communities

The Ocean Beach Planning Board recognizes the value of Incentive Based Zoning in our community. In our meeting on January 3<sup>rd</sup>, 2018, the OB Planning Board reviewed the Incentive based zoning proposal for Coastal Development Regarding exemptions from Coastal Development Permits presented by Citizens for Responsible Coastal Development (CRCDD) and unanimously voted to support the concept. We request the City further develop and refine the regulations to specifically address the [Exemptions from Coastal Development Permits per SDMC article 126.0704](#) aka the “50% rule” as well as proper assessment of the 30ft height limit per the [Coastal Height Limit Overlay Zone SDMC article 132.0501](#).

Like other coastal communities in San Diego, the Ocean Beach Community is plagued with projects that use loopholes, exemptions, and serial permitting to avoid discretionary review processes. This results in projects that are oversized, out of scale, and out of alignment with the goals and recommendations of the [Ocean Beach Community Plan and Local Coastal Program](#). Please act to support Incentive Based Zoning Regulations in the Coastal Zone.

Thank you for supporting our coastal communities in addressing this issue.

Sincerely,

John Ambert, AIA, LEED AP  
Chair, Ocean Beach Community Planning Board
