

: Read pregnant patient's right

You shall be provided with information regarding prenatal care, your right to receive abortion, family planning and postpartum care. You are informed of your right to request to see your own physician at your own expense to determine continuation of pregnancy or elect abortion. If you wish to continue with your pregnancy, you will receive a balanced, nutritious diet and prenatal vitamins as approved by the physician. You will receive prenatal and postnatal health care and information pertaining to childbirth education and infant care. You will be chained and handcuffed during labor and delivery. You will be informed of family planning services prior to release.

: Pt verbalized understanding.
