FOR IMMEDIATE RELEASE

August 27, 2021

**Statement from High Tech High CEO Dr. Rasheed Meadows
regarding the agreement reached with the High Tech Education Collective**

“High Tech High is pleased that the HTH Board approved a settlement agreement today that recognizes the High Tech Education Collective (HTEC) as the exclusive representative of the agreed-upon HTH certificated staff.

Today’s agreement is an important step toward achieving the vision outlined in our new strategic plan and fostering organizational unity among High Tech High staff, families, and students. We remain confident that together, High Tech High and the High Tech Education Collective will work to build an even stronger organization that gives all students opportunities and support to reach their full potential.”

About High Tech High

Developed by a coalition of San Diego civic leaders and educators, High Tech High opened in September 2000 as a small public charter school with plans to serve approximately 450 students. Today, High Tech High has evolved into an integrated network of 16 charter schools serving approximately 6,350 students in grades K-12 across four campuses. The High Tech High organization also includes a comprehensive adult learning environment, including a teacher credentialing program and the High Tech High Graduate School of Education.

High Tech High is guided by four connected design principles—equity, personalization, authentic work, and collaborative design—that set aspirational goals and create a foundation for understanding our approach. For more information, visit hightechhigh.org.
