Date/Time: 01/30/2024 11:47:15
Tracking Number: 2401-0045

Request/Task Details

Request Title: Request the relocation of the County LAC

Detailed Description: The City of San Diego is requesting the current Local Assistance Center (LAC) and all its resources/capabilities be relocated to the City of San Diego's Mountain View Community Center beginning on 1/31/2024 to be operational no later than 08:00 on 01 FEB 2024 to remain open for 7 days.

This official request follows our initial verbal conversation for a LAC to be provided at a location within the City of San Diego, most notably nearest the neighborhoods most affected in the City of San Diego with an identified vulnerable population that is by large challenging to support when impacted by catastrophic events such as the current damage by this rain and flood event.

The City has mobilized all of its local and outside resources to provide the highest level of mitigation and recovery operations possible for these areas and its citizens but still lack the ability to provide the additional resources found in the County LAC to this hard hit community. This significant impact drove our initial early-on verbal conversation with request for a LAC and subsequent additional request through our City EOC Representative to the County EOC on 29 JAN 2024.

With the conveyed expectation of the the County LAC closing on 31 JAN 2024, we felt those resources would be best utilized by shifting them to a location allowing greater access to the citizens in the City of San Diego who have incurred the most loss as a result of the storm damage and flooding.

Any questions for this request or need for further clarification, please reach out to OES Director, Chris Heiser 619 279-4464, CHeiser@sandiego.gov. In addition, inform us immediately of any obstacles to meeting this request.

Based on previous discussions we were advised that only a single location would be possible.

Justification: The current location selected by the County does not adequately serve the needs of the City of San Diego population most impacted by the flood damage who require this level of support and information for recovery assistance.

Assignment Details

Priority: IMMEDIATE (4 HRS.)
Date/Time Due: 01/30/2024 16:31:00

Status: COMPLETE

Assigned To: SDCOA - EOC - Logistics

Date/Time Completed: 02/03/2024 17:11

Delivery/Location Details

Location Name: Mountain View Community Center
